PORTO RICO PROTEST.

Islanders Demand Relief From Heavy Burden of Taxation.

TRIPLE TAX SYSTEM IN OPERATION.

President Urged to Have Special Session of Insular Legislature Called To Repeal or Remedy Defects of Hollander Law.

Washington, March 11.—The president granted a special audience to Messrs. Wenesley Borda, Jr., and Vicente Baldas, members of the Porto Rican commission which was appointed at a mass meeting of the citizens at San Juan Feb. 2, to protest against the law enacted by the insular legislature known as the Hollander bill. This measure provides for the raising of revenue by property and excise taxes. Messrs. Borda and Baldas were accompanied by Freeman Halstead, secretary of the commission, Pedro Salazar, the third commissioner, being detained in New York. The commissioners presented formal protest which enumerated a series of 18 objections to the law. It is contended that there exists today in Porto Rico, "three taxes levied and collected for the same purpose, from the impoverished pockets of the people," viz: The new excise taxes under the Hollander law, the old insular and municipal taxes and the customs duties under the Porto Rican civil government act. Any of these it is held, is sufficient to cover the budget. Under the bill \$500,000 or more will be collected semi-annually in advance, the protest says, thereby lessening the money in circulation (of which there is less than \$2,000,000) and producing a state of impoverishment and business stagnation as the taxes are collected by summary process. It is asserted that the measure is both an income and property tax law, that two of the principal industries of the island (rum and tobacco) are taxed so heavily their production under present conditions is practically prohibited; that the only standard of valuation of property will be the personal opinion of the assessors and as they may be appointed by political favor there is danger of injustice to a large section of the community from excessive valuations in view of the fact that no municipal budgets have been prepared and no reliable estimate of the value of the taxable property of the island made. The great mass of the property owners believe, it is claimed, that the interests of the islands will be best conserved by a continuance under the present law, which has worked well to the present time. The people of Porto Rico, the protest sets forth, are ready and willing to meet all taxes necessary for the maintenance of order, justice and good government, but they strenuously object to a tax law, the amount of which is uncertain since no valuation of property has ever been made in the island and which has been imposed upon them without due regard to the actual conditions of the country, the necessities of the taxpayers and in a manner which severely oppresses the wealthy producers of Porto Rico at a time when the island has not yet recovered from the ruinous effect of the recent hurricane and from the 40 per cent reduction of its circulating medium by the exchange of the provincial money for the United States currency, still further reduced by the excess of imports over exports. The commissioners ask the president that Governor Allen be directed to call a special session of the legislature to amend the law in a manner which will relieve the people of the burdens complained of and that the governor be directed to exercise care in the appointment of the assessors.

The commissioners also presented a petition of bankers, merchants and other business men of New York and Philadelphia praying that the protest be given due consideration.

Dakota Revenue District.

Washington, March 11.—The president posted an executive order creating a new internal revenue collection district by detaching the states of North Dakota and South Dakota from the Nebraska district and making them a separate collection district. This order will go into effect on the appointment and qualification of the new collector.

Porto Rican Cases Still Pending.

Washington, March 11.—The supreme court did not announce its decision in the Porto Rican cases. Only three opinions were delivered, all of minor importance, which is taken to mean that the court is devoting its time largely to the insular cases.

Still in the Granaries.

Washington, March 11.—The amount of wheat in farmers' hands March 1 was 128,100,000 bushels; corn, 776,200,000; oats, about 292,800,000.

TWO COMPANIES LEFT. American Legation Guard at Peking. Question of Quarters.

Peking, March 11.—Companies A and B of the Ninth United States infantry have been notified that they are to remain in China. It is believed that Major Robertson will command them. Many Americans here urge the legislature to use its influence to have at least two field guns and enough artillerymen to work them left. They say that during the siege these guns would have been more valuable than 200 armed men and that necessity for their use is liable to occur again.

The American field telegraph line which was constructed here, has ceased operations and the wire has been coiled in preparation for shipment to Manilla. The question of quarters for the American troops remaining in Peking is still the subject of discussion. Army men favor the temple of agriculture as being healthier and sufficiently near the legation for troops to be sent there in a hurry as an additional daily guard should circumstances arise rendering it necessary. They think the court's objections are magnified. It is not likely the British will relinquish the Temple of Heaven, and they will certainly require the permanent building being erected there. The only other available place ready is a palace belonging to one of the princes, far from the legation in the middle of the Tartar city.

Conger Starts Home.

Peking, March 11.—United States Minister Conger has left on his return home. All the foreign ministers bade him farewell at the railway station. Besides the foreign representatives a large crowd gathered at the station to bid the minister and family farewell. Mr. Conger's 60 days' leave of absence will begin when he reaches San Francisco on his homeward journey.

Washington, March 11.—Mr. Conger cabled the state department as follows: "I leave Peking today for America. Squiers is left in charge." Thus it appears clearly that Mr. Rockhill is not successor to Mr. Conger as United States minister at Peking at this time, but simply a special commissioner limited in his functions to the negotiations with the Chinese government and the other ministers for a settlement of the troubles growing out of the Boxer uprising.

Russia Impatient.

London, March 11.—A dispatch just received from Shanghai dated March 11 says: "It is reported upon trustworthy authority that Russia has notified China that unless the Manchurian convention is signed at an early named date Russia will withdraw the convention and substitute harder terms in its place. Li Hung Chang declares he is powerless to resist and has appealed to the United States, Great Britain, Germany and Japan to intervene in China's behalf. Considerable uneasiness in consequence of the extreme friction is believed to exist between the Yang Tse viceroys and Li Hung Chang."

Li Hung Chang's Health.

Peking, March 11.—Despite the report that Li Hung Chang is seriously ill and that his life hangs by a thread, his physicians say his condition would not be dangerous except for his advanced age. They are extremely hopeful of being able to bring him through.

Germans Seize a Gate.

Berlin, March 11.—The war office has received the following dispatch from Count Von Waldersee, dated Peking: "Colonel Ledebur's column stormed a gate of the great wall 80 miles west of Pao Ting Fu, Friday, March 8, capturing four guns."

Condition of German Colonies.

Berlin, March 11.—In the reichstag during the debate on the budget for German East Africa, Herr Bebel, Socialist, made several very severe attacks on the administration of the colonies. Dr. Stuebel, secretary of the colonial office in a lengthy reply admitted that the commercial conditions in the colonies were not so good as might be wished, but this was explained as principally due to a lack of communications. The revolts were not due to the collection of taxes nor the execution of 19 chiefs, which had occurred under circumstances admitting of no other course. Slavery was no longer legal. The only slaves now are those born in slavery.

Injunction Refused.

Jersey City, March 11.—Vice Chancellor Stevens denied the application to make permanent the injunction restraining the stockholders of the American Smelting and Refining company from increasing the capital stock of that company from \$65,000,000 to \$100,000,000 and restraining the directors from purchasing the plant of M. Guggenheim Sons in Mexico.

The Alabama's Final Test.

Pensacola, Fla., March 11.—The battleship Alabama sailed at 9 a. m. on her final 48-hour speed test trip.

BOERS AGAINST BOERS

Refugees Ask Arms and Permission To Take the Field.

THROW IN THEIR LOT WITH BRITONS.

Object Is Not to Fight Their Former Comrades But to Protect Their Homes and Property Against Marauders—Dogging Dewet.

Bloemfontein, March 11.—General Dewet is reported to be moving northward steadily at the rate of 25 miles a day, with a view of crossing the railway to the eastward. He should now be west of Kroonstadt. Several small commandos are in possession of the southeastern portion of the Orange River colony from which the garrisons of Dewetsdorp, Wepener, Smithfield and Rouxville have been withdrawn.

It is impossible not to be struck with the fact that a great proportion of the former enemies of Great Britain in South Africa now frankly throw in their lot with the British. Brandfort, Kroonstadt and Bloemfontein commandos of former burghers are bearing arms against the Boers. They state their object is not to operate against former comrades, but to defend their homes and property against marauding bands of Boers.

All towns in the Free State occupied by the British will soon become centers of British influence extending a long distance in their vicinity. Over 13,000 refugees are now within the British lines and many of them demand arms and permission to take the field. If their requests are granted, it will be easy to get 2,000 former burghers enrolled on the British side.

Death Penalty Imposed.

Cape Town, March 11.—A court martial has sentenced to death two men connected with the recent wrecking of a train at Taaibosch. Others concerned were condemned to various terms of imprisonment.

Boiler Explosion Horror.

Chicago, March 11.—By the explosion of the boiler of the Doremus laundry, occupying part of the old Waverly theater building on West Madison street, the building was wrecked and immediately took fire. There were about 30 girls and from 50 to 60 male employees in the building. Eight dead bodies have been taken from the ruins, while the number of injured will reach 25. Several other employees are reported missing. The explosion took place at a time when many of the employees of the laundry had gone to work. A time register found in the ruins showed that 36 had already reported for duty while two or three others were known to have just entered the building. The force of the explosion was so terrific that buildings for blocks around were shaken as if by an earthquake and hundreds of windows were shattered.

Lake Longshoremen.

Cleveland, March 11.—About 80 delegates representing 15,000 longshoremen employed at Lake Erie ports met in convention here with President Kiefe of the Longshoremen's Union of America presiding. The most important object of the convention is to fix the wage scale for this year. It is understood no advance in wages will be asked. The convention will be in session several days. Wednesday a committee of longshoremen will confer with the dock managers in reference to the scale.

Harrison Some Better.

Indianapolis, March 11.—It was announced at the Harrison home Monday afternoon that Mr. Harrison was resting a little easier. The physicians believe there is no danger unless complications should arise. He still has fever. He says himself that the attack is only a slight brush from which he will soon recover. Members of the family have not yet been summoned.

Nail Trust's Dividend.

New York, March 11.—The directors of the American Steel and Wire company declared the regular quarterly dividend of 1 1/4 per cent on its preferred stock and a quarterly dividend of 1 1/4 per cent on its common stock. The latter is a reduction of 1/2 per cent from the last payment.

Cruel Captain's Penalty.

Berlin, March 11.—Captain Kahnenberg, charged with having committed a number of cruel deeds in German East Africa and arrived in Berlin in April, 1900, to be tried by court martial, was sentenced to three years imprisonment and dismissal from the service.

Tour of Inspection.

Washington, March 11.—General Wilson, chief of engineers, has gone on a tour of inspection of fortifications and river and harbor works along the southern coast with Galveston as his ultimate destination.

REJECTED BY BRITAIN.

Amendments to the Hay-Pauncefote Treaty Turned Down.

Washington, March 11.—The answer of the British government to the senate's amendments to the Hay-Pauncefote treaty, was received by the British ambassador and communicated to Secretary Hay.

The British answer is a dignified but complete rejection of the senate amendments and it leaves upon the United States government the responsibilities for any further action that may be deemed expedient.

Lord Pauncefote called at the state department at noon by appointment and delivered the answer. It is believed it had been in his possession several days. Lord Pauncefote and Secretary Hay were closeted together half an hour. A copy of the answer was left with Mr. Hay.

After disposing of the details, the note concluded with an expression of regret that such a course was forced upon the British government. There was nothing in the nature of a counter proposition, nor was any opening left for further action by the British government. It was stated that if there is to be a further attempt to amend the Clayton-Bulwer treaty, so as to authorize the United States to construct a waterway across the isthmus, it is for the United States to make the overtire. The British government simply drops the matter at this point.

Secretary Hay carried the communication to the White House to talk with the president as to the future action of the department. The impression prevails that there will be no immediate action looking toward the negotiations of a treaty.

GUARDING VICTORIA'S TOMB.

Precautions Against Desecrating the Mausoleum at Frogmore.

London, March 11.—Apprehension appears to prevail as to the possibility of an attempt to desecrate the mausoleum at Frogmore in which Queen Victoria is entombed. Not content with the strong guard of police that has kept watch over it, by order of the king the authorities have established a strong military post there and soldiers are to assist the police in keeping guard over the body of the late queen. That the arrangement is to be permanent is apparent from the fact that a guardhouse of considerable dimensions is being built in the immediate vicinity of the mausoleum.

Chili's Cabinet Resigned.

New York, March 11.—A dispatch from Valparaiso says that as a result of the discussions in the last session of congress and the recent political revolution the cabinet has resigned. The retiring cabinet had members of the conservative party. The new cabinet will be composed of Liberals only. It is believed Senor Riesco's nomination for president will be a severe blow to Don Pedro Montt. He is ambitious and popular and a near relative of President Errazuriz.

Bloody Riot.

Barcelona, March 11.—A riot is reported to have taken place at Manileu, a town in Catalonia, 40 miles north-northeast of Barcelona, in consequence of a strike. The strikers attacked some factories and burned two of them. The gendarmerie intervened and in the resulting conflict two persons were killed and a number of others were wounded, including the mayor. Telegraph lines between here and Manileu have been cut.

Ohio Incorporations.

Columbus, O., March 11.—Ohio Northwestern Railway company, Fostoria, \$2,000; Jack Oil company, Toledo, \$10,000; Conneaut Water company, Conneaut, \$175,000; Marietta Fuel Gas company, Marietta, \$100,000; Standard Machine and Novelty company, Toledo, \$25,000; Loudonville Canning company, Loudonville, \$1,000.

Brazil Government Watchful.

Rio Janeiro, March 11.—While it is officially denied that a monarchist plot has been discovered, there are many circumstances which show that the government is guarding against any attempt to overthrow it. Precautions have been taken by the police and military. Great precautions are also being taken on the war vessels.

Brown in Honduras.

Cincinnati, March 11.—A dispatch from Ceiba, Honduras, tells of the successful search for Frank Brown, the defaulting ex-official of German National bank of Newport, Ky. The story runs that Brown is in Honduras in partnership with S. A. Pier of Montana, both engaged in seeking to repair their fortunes.

Queen's Life In Danger.

London, March 11.—According to representations received from The Hague, the Roumanian police have been instructed to watch certain persons at Jassy, who are suspected of being engaged in a conspiracy against the lives of Queen Wilhelmina and her husband.

Servia in the Navy.

Denver, March 11.—Gilbert Wilkes, 39, president of Gilbert Wilkes & Co., electrical and mechanical engineers and contractors, with offices in Denver and Detroit, died at his home in this city of a hemorrhage of the lungs. He will be buried in Detroit. Mr. Wilkes was in the United States navy 11 years. He was lieutenant commander of the Yosmite during the Spanish war. He leaves a widow and two sons. His widow is the daughter of Colonel Charles Denby, formerly United States minister to China.

Vacation For Gage.

Washington, March 11.—Secretary and Mrs. Gage left Washington for Chicago. The secretary expects to return in about a week.

TERRORIZED NATIVES.

Filipino Secret Society Killed Those Friendly to America.

FEAR KEEPS THE PEOPLE SILENT.

Victims of the Society Were Buried Alive — Murderous Operations In Territory Occupied by Americans — Ringleaders Arrested.

Manilla, March 11.—The trial of the nine natives charged with having murdered Quisumbing, president of Calamba, because he was friendly to the Americans, discloses how the insurgents terrorized the natives even in territory occupied by the Americans.

Members of a secret society known as Mandoducats systematically abducted and killed Filipinos favoring American rule. In two months the Calamba Mandoducats killed 49 natives. The victims were usually buried alive. Fear kept the people silent.

An officer of General Caillie organized and directed the operations of the Mandoducats in Calamba, Binang and other towns in the Laguna province. The ringleaders were arrested and tried and many suspects were held pending an investigation. The arrests effectively checked the operations of the Mandoducats.

The verdict of the military commission which is trying the cases has not yet been announced.

Communication Cut Off.

Chicago, March 11.—All railroads suffered almost complete paralysis of telegraph service on account of the tornado from Texas. The Chicago and Northwestern lost about 15 miles of poles and wires, chiefly in Wisconsin, and the Chicago, Milwaukee and St. Paul railroad suffered greatly, though there was no serious delay to the running of trains. The storm levelled practically all wires between Chicago and St. Paul. The telegraph companies without exception reported absolute inability to handle the briefest message for that section. News service to papers throughout Wisconsin and portions of Iowa and Minnesota was limited to report transmitted by mail and express.

The Texas Tornado.

St. Louis, March 11.—Reports from the stormriven portions of Texas and Arkansas continue to come in. The town of Pine Prairie, Ark., 75 miles north of Texarkana, was swept away and many persons injured, two being killed. Damage at New Boston, Tex., will aggregate \$65,000, and in the vicinity it is incalculable. Many farm houses have been unroofed and families left without a home. In New Boston 36 store houses and residences were demolished. Not a life was lost. The entire town of Blossom, Tex., which has a population of 1,200 was dismantled.

Wisconsin's Shower of Ice.

Milwaukee, March 11.—The sleet storm which visited Wisconsin, cutting the city off from communication with the outside world and demoralizing railway traffic, was the most disastrous in years. Railway men of wide experience say such a situation has never before presented itself to them. Officials

THE C. AND O.

This Road To Be a Part of the Pennsylvania System.

Stockholders To Be Guaranteed 3 Per Cent. Dividends Under a Lease for 999 Years—The Details.

[New York Times.]

Final details are now practically completed for the actual annexation of the Chesapeake and Ohio railroad to the Pennsylvania system. The Pennsylvania's controlling financiers joined William K. Vanderbilt and J. P. Morgan about a year ago in the purchase of a majority of the Chesapeake and Ohio's capital stock—this being one of the earliest moves toward the development of the community of interest policy among important American railroads. The proportion taken by the Pennsylvania was largest—amounting, by mutual agreement, to control. During recent months this interest has been extended, till now, directly and indirectly, the Pennsylvania owns the independent working majority.

Now comes the step originally planned—the Pennsylvania is to take over the Chesapeake and Ohio, make it an integral part of its vast system, by the execution of a lease for 999 years. There is to be a Pennsylvania guarantee of dividends to Chesapeake and Ohio stockholders at 3 per cent. at the start, with additional disbursements "as earned."

Though Chesapeake and Ohio securities have recently been conspicuous on the New York Stock Exchange, no official suggestion has hitherto indicated this development. Wall street, of course, has not believed that the big interest in Chesapeake and Ohio was acquired by the Pennsylvania without such well-defined, far-reaching plans in view as would eventually prove advantageous to both properties; but nowhere has there been expectation of the lease policy now determined upon. Generally there has been the idea that the Chesapeake would have to go through that waiting experience which has made Pan-handle security holders weary through so many years, a policy which has had Pennsylvania exemplification for a variety of other "subordinate," or auxiliary, properties.

But it is stated (on authority of character) that in the original compact under which the Pennsylvania-New York Central interests acquired the controlling blocks of Chesapeake and Ohio, William K. Vanderbilt personally arranged a stipulation to the effect that all minority interests should have immediate and actual returns from the traffic operations of the property. Two members of the Vanderbilt family are among the largest minority holders of Chesapeake and Ohio stock; and attorneys closely related to Vanderbilt interests are now active in the technical legal preliminaries that have to do with the lease proposed by the Pennsylvania.

It is not disclosed when the lease will be perfected and made operative; many details are involved, but none that is serious. Upon what can be considered as satisfactory authority, however, it is stated that "only a comparatively little time is now needed" to complete the arrangement. The phenomenal increase of the earnings of the Chesapeake and Ohio system warrant rapid progress.

"About 1890 he went to Texas and started in the shorthorn breeding business. His business continued to grow and fortune so smiled upon him that he became known as the largest breeder of shorthorn cattle in America. His home was in Fort Worth, but his ranch was situated about twelve miles from that city. He was the head of a happy family, being blessed with four boys and three girls, all of whom, together with his wife, survive him.

"His estate is a large one, being estimated at over half a million dollars. His ranch contains 8,000 acres of the finest grazing land in Texas. His herd of shorthorns is most valuable. He also has a farm of 200 acres on the Russell Cave pike, besides other minor pieces of property.

tal capital of the Chesapeake and Ohio Company. And this fact is considered—as well as the certain prospect of further vast development and increase—in the lease plan which has now been submitted to attorneys in New York. The 3 per cent. guarantee is for a relatively short period, at the expiration of which there is to be larger disbursement, "as earned," though a peculiar detail of the lease may provide that the actual responsibility of the Pennsylvania as guarantor will continue limited to 3 per cent. per year during the entire 999 years of the lease.

President Cassatt, Mr. Vanderbilt and Mr. Morgan are credited with having given close personal attention to this Chesapeake and Ohio project, and they see in it much that promises to be of great consequence beyond the mere actual absorption of a "junior railroad property" and the giving of investment stability to that one corporation's securities.

A NATIVE OF MASON

Was Col. J. W. Burgess Whose Death at Fort Worth, Texas, Was Mentioned Monday.

Brief mention was made Monday of the death of Col. J. W. Burgess, a cousin of Mr. J. B. Burgess of this city, at the former's home in Fort Worth, Texas.

To his last moment, Mr. Burgess declared that his death was due to an affection of the lungs, caused by an accident received during his last visit to Kentucky.

He was in Fayette County looking after his farm, when his horse fell with him and bruised his left lung against the saddle pump. This accident happened last fall. His physicians, however, attributed his death to cancer of the liver.

In pursuance to a wish expressed some time before his death, his remains will not be brought to Kentucky, but will be interred at Fort Worth.

The Morning Democrat of Lexington contains this sketch of deceased:

"Col. J. W. Burgess was about sixty-three years of age and was born in Mason County. He came to Lexington immediately after the war and settled on a farm on the Russell Cave pike, which farm still belongs to his estate.

"He married a Miss Innis of the Russell Cave neighborhood. He conducted a shorthorn breeding farm on his farm for some time. He then moved to Lexington and opened a livery stable back of the Phoenix Hotel. Later he established the stock yards, now conducted by the Gentry Brothers.

"About 1890 he went to Texas and started in the shorthorn breeding business. His business continued to grow and fortune so smiled upon him that he became known as the largest breeder of shorthorn cattle in America. His home was in Fort Worth, but his ranch was situated about twelve miles from that city. He was the head of a happy family, being blessed with four boys and three girls, all of whom, together with his wife, survive him.

"His estate is a large one, being estimated at over half a million dollars. His ranch contains 8,000 acres of the finest grazing land in Texas. His herd of shorthorns is most valuable. He also has a farm of 200 acres on the Russell Cave pike, besides other minor pieces of property.

CANT KEEP IT UP.

Can't Deceive Maysville People Very Long. They Learn Quickly.

It is sometimes an easy matter to fool the public, but you can't keep it up very long. They are sure to find you out; and every time man is fooled another skeptic is made. We are naturally skeptical when reading a published statement given by some stranger residing in a far-away place, but the circumstances are entirely different when home endorsement is presented. The testimony of local citizens renders deceit impossible. It is so easy for you to investigate. Read this case:

Mr. George N. Crawford, blacksmith and wheelwright, corner of East Second and Lee streets, says: "The great benefit which speedily follows the use of Doan's Kidney Pills seems little short of miraculous. I procured the remedy at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, and by the time I had used one box I was cured. If any one suffers from kidney trouble which such an effective kidney cure as Doan's Kidney Pills can be had the fault is their own."

In paying 3 per cent. upon the capital stock of the Chesapeake and Ohio, even if the amount were not earned and had to be wholly contributed, the Pennsylvania would actually have to disburse \$900,000 on the stock, which is not in its own treasury, or practically there.

And this would, at the current rate of earnings, leave in Pennsylvania's hands \$2,000,000 per year, or over.

Earnings of \$3,000,000 per year in surplus, applicable to stock if need be, equals 5 per cent. dividends upon the to-

THE SALE OF Undermuslins!

That the women of this town appreciate worthy fabrics, generous sizes, conscientious needle work and elegant trimmings—allied to economical prices—is proven by the unprecedented patronage this spring sale of Muslin Underwear has commanded. Fresh from the semi-rural factory, made by clean well-paid workers,—devoid of all suspicion of sweat shop—no wonder such garments appeal to the women of taste who compose the Hunt constituency. It is not surprising that practically all the muslin underwear selling of Maysville is being done here.

CAPTAIN W. P. WALKER.

A Noted Riverman Has Gone on His Last Voyage—Summons Came Sunday Night.

The remains of the late Captain W. P. Walker were taken to Cincinnati on the 3:20 train Monday afternoon, and to-day at 2 p. m. they will be laid to rest in beautiful Spring Grove Cemetery.

Captain Walker was born at Fox Springs, Fleming County, April 1, 1820.

At the early age of only sixteen he had mastered the trade of a ship builder and was in charge of a boat-yard at Louisville. He had not been engaged very long at his trade before a party became indebted to him for the construction of a steamer and he took the boat in satisfaction of the debt. This gave him an opportunity to engage in steamboating and he was among the first probably to establish a line of boats between Cincinnati and Memphis. This was the beginning of a long and successful career on the Ohio and Mississippi rivers, during which Captain Walker commanded some of the finest packets in the Cincinnati and Memphis and Cincinnati and New Orleans trades. For several years during this period he was also interested in a dry dock and boat yard at Memphis. In some respects his record on the river was a most remarkable one, as he never lost a boat by accident, and no steamer he ever commanded met with an accident that resulted in the loss of a single passenger.

In his declining years he retired from the river and spent the remainder of his days in this city, making his home with his brother-in-law, the late John B. Gibson, on West Fourth street until the latter's death and since then with Mr. Gibson's widow. For some time he had lingered in a very serious condition as a result of general debility. Friday evening he sank into a sleep from which he never awoke, the end coming at 9 o'clock Sunday night.

Captain Walker married Eliza Lee Stewart of this city in 1847. She died in 1886. Two sons were born of this union, only one of whom survives, Mr. Cliff S. Walker, General Southern Agent of the C. H. and D. Railroad. The other was the late W. P. Walker, Jr., who at the time of his death a few years ago was Freight Traffic Manager of the C. and O. Railroad.

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1 bottles of Dr. King's New Discovery wholly cured me and I gained fifty-eight pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c. and \$1. Trial bottles free at J. Jas. Wood & Son's drug store.

Young Women

The entry into womanhood is a critical time for a girl. With her whole being undergoing a change, the seeds of female troubles are sown. Little menstrual disorders, if neglected at the time, will follow the woman all her life and grow into fatal complications. That female troubles are robbing homes and filling graveyards, proves this. Yet, irregular and painful menstruation are often permitted to go on, sappling the life and energy, while Wine of Cardui, the positive relief for these ills, is on the shelf of every drug store. Wine of Cardui helps the maiden sustain the shock of puberty by inducing a painless and natural menstrual flow. When once this important function is started right, a healthy life will usually follow. Wine of Cardui is an emmenagogue of great power, and works wonders in strengthening the delicate and sensitive female organs. Many young women owe their lives to Wine of Cardui. No woman should give up hope until she has given Wine of Cardui a trial. If thousands have secured relief through it, why not you?

WINE OF CARDUI

Tulky, Kas., Feb. 24, 1899.
I have suffered untold pain in menstrual periods for a long time, and now have no appetite, and lost interest in everything; in fact was miserable. I have taken four bottles of Wine of Cardui with Black-Draught when needed and to-day I am entirely cured. I can not express the thanks I feel for what you have done for me.

In a strong sermon at the First Christian Church of Louisville Sunday evening, Elder E. L. Powell considered the various objections to secret societies and admirably answered them, says the Courier-Journal. In conclusion, he strongly commended the work of fraternities, but placed the church high above all on account of its divine origin. In closing, he quoted a part of James Whitcomb Riley's poem:

"Wouldst have a friend the very best; Take God. He passeth all the rest."

OUTLOOK FOR WHEAT.

The Harvest Will Depend Upon the Weather Conditions From Now On.

[H. F. Hillenmeyer in Lexington Herald]

Just now much uncertainty fills the farmer's mind about the wheat outlook.

This uncertainty is not, perhaps, so much with the farmer as with the miller, the grain dealer, the railroad people, the twine makers and the implement sellers. And then tradesmen, mechanics and laboring people are deeply interested. Wheat is marketed just in time to pay July accounts, to square up with the harvester and haymaker, to lay by for tobacco hands and hemp-cutting, and little of the half million that Fayette's wheat crop brings in goes into permanent savings.

To look casually over the fields just now is anything but encouraging. They are brown, bare and in strong contrast to their appearance a year ago, when every farmer was struggling with the question to graze or not to graze.

The winter has not been a cold one, but since November 20 very dry, with no snow and many sharp frosts—a regular Western winter, in fact, all save the cold and snow. The drill marks are as deep to-day as when the seed was committed to earth. The plants are in the bottom of the drill mark, sound and vital, but with frosty leaves and giving no apparent evidence of capability to yield an hundredfold.

The weather last fall was very dry, very warm and the fly quite abundant. From infested fields it is hoping against hope to expect great yields. But in dry times farmers are disposed to seed deeply, which is all right if weather conditions favor afterward; but, unfortunately, this was not the case last year. The rains, like the breaking of the doctor's chaise, came all in a lump, and came so gently and so copiously that the earth packed like a vise around the deeply sown plants, and, as was expected by every one familiar with minutia of seed sowing, they damped off.

Many fields entirely free of fly suffered from this error in seeding, and such may yet return excellent yields. What the final outcome will be no one can yet forecast, but the fear of fly is overestimated. It is a question of temperature and humidity. Should the spring be wet and warm, there will be little tillering of the plant, but immediate jointing and a light stand of straw; should the spring be wet, raw, cold and long-continued, the plant would tiller immediately and a superb yield result.

In view of a mild winter, devoid of both rain and snow, it is easy to assume that spring will not linger in the lap of winter, and that the returns from this golden grain of life will yet fill every pulse and artery of our domestic commerce.

THEY COPY

Everything we do,
Why don't they copy prices too?

Because they can't, that's why, and that's a good enough reason. We have, from the start, cut the life out of high prices, and thereby benefiting the poor as well as the rich man, and we are in the fight to finish. Here are a few special stumblers—prices that even wholesalers will look at with surprise.

BEGINNING MONDAY, MARCH 11,
and Lasting Two Weeks, We Will Sell—

Three-pound Standard Tomatoes, the finest ever put up, at 7¢ a can. Yes, you can get as many as you desire at this snap price.

Three-pound Standard Peaches at 7¢ a can. Don't forget to tell your neighbor about this if you have any use on earth for his friendship.

Three-pound strictly fancy Table Peaches, 10¢ a can, worth 20¢.

Two-pound Standard String Beans, the 10¢ kind at 5¢ a can. You never picked 'em finer and more tender off the vine.

Two-pound Standard Sugar Corn at 5¢ a can. It's just the same kind that all other grocers ask 10¢ for.

Choice California Dried Peaches, four pounds for 25¢. A half dozen of 'em will fill a saucer, so nice.

Loose Muscatel Raisins, the large kind, at 7¢ a Pound.

Great big Prunes, forty to the pound, at 7¢.
